I am currently doing my last year of bachelor's degree in Applied Languages (*LEA*) and I would like to integrate the **master T2M in Dijon** in order to acquire new competences so that I would be able to make **dubbing and voice-over translations** or even **make audiovisual contents more accessible to people that have hearing or visual impairment**.

I am a keen and enthusiastic person, I would be glad to learn and discover new things.

## Studies

- «DEUG» in Applied Languages (*LEA*)  
/ English and Spanish
